

Boonsboro Cemetery Association
Boonsboro • Maryland

Effective December 8, 2011, the following restrictions will apply to cemetery lots purchased in the Boonsboro Cemetery. These restrictions have been implemented to control the placing of monuments in the Cemetery. This will not only protect the beauty of the Cemetery but will also help with the mowing and maintenance.

1. On eight grave lots an upright monument may be placed in the center of the lot. One upright monument will be allowed per lot with flat markers allowed on each grave site.
2. On four grave lots the same applies as stated in number one above. This does not apply to four grave lots in the Memorial section.
3. In the memorial section of the Cemetery, flat markers must be used. No upright monuments are permitted in this section.
4. Only in Section D, located in the Cemetery's southwest section, two grave lots may be purchased with one upright monument centered on the lot permitted as well as two flat markers allowed per lot.
5. All new monument or marker placements must be approved by Cemetery personnel.

Sincerely,

C. Rodney Cline
Secretary Agent

Date

I have read and understand the above restrictions and will comply within.
